

Butrint National Park Visitor Center International Design Competition

Stage 1 Question and Answer Log Vol. 1
Date of issue: 30 September 2022

Question number	Enquiry	Response	Date
1	Scope of Work (Post Competition): You have indicated to include exhibition design, as well as wayfinding and interpretation as part of the competition team. Will these services also form part of the post competition scope of work?	Yes, these services will form part of the post-competition scope of services.	22-Sep-22
2	You have indicated a secured 2,45 M USD budget which could increase to 4 M USD. Does this budget include the exhibition cost?	Yes this includes the exhibition costs.	22-Sep-22
3	You have indicated that at least one of the three reference projects shall be realized by the lead design firm. Thus we understand that the remaining two reference projects can be from other members of the multi-disciplinary team. Can we assume that in that sense the remaining two references don't have to be necessarily be Building projects but can be in the realm of exhibition design or landscaping or how is this meant?	This is to the discretion of the competitor. It is correct that one project must be from the lead design firm, and the other two projects can be by other members of your proposed team. However, please make sure that the reference projects provided are clearly relevant to the Butrint Visitor Center project, and that relevance is clearly articulated in your response.	22-Sep-22
